

Fire Extinguishers.

1. Fire extinguishers in Racecars are optional.
2. All drivers must have an extinguisher with their race number stamped/painted on it and it must be taken to scrutineering.
3. If an extinguisher is fixed in the car the driver must familiarise themselves with the method of operation of their respective extinguishers.
4. Fire extinguishers must be a minimum of 0.9 Kg size.
5. It is recommended that all vehicles in the pits should carry a fire extinguisher.
6. Fire Extinguishers should be checked every 12 months, signed / stamped to say they have been done.
